General Information

We enable our clients to operate with highest efficiency and productivity by making sure that materials and equipment work together flawlessly.

As a general contractor and sub-contractor, PLH Projects takes pride in our responsibility to supply our customers in the mining industry with a skilled and experienced labour force.

Our management approach encompasses an ease of doing business and open lines of communication throughout each project.

PLH Projects' team thrives when performing challenging construction projects with tight deadlines.

We handle a wide spectrum of projects from large installations and erections to maintenance, refurbishments and break-down repairs.

Compliance

PLH Projects is a member of the Metal Engineering Industrial Bargaining Council ('MEIBC') and complies with the following:

- B - BBEE Level 2 contributor
- Workman's Compensation
- Tax Clearance Certificate
- All relevant laws and regulations

Our Success

PLH Projects have successfully completed various projects. From new installations and erections of Steelwork Structures and Bulk Materials Handling Equipment to maintenance and refurbishment of these machines and structures. We believe that our success is a result of expert customer service, quality workmanship and high safety standards.

Services And Solutions

Your Partner in Bulk Materials Handling Solutions

PLH Projects is mostly active in the Mining Industry. Our role is the structural and mechanical installation and erection of Bulk Materials Handling Equipment.

We work hand in hand with experts in the Engineering Industry who design and manufacture Bulk Materials Handling Equipment.

We have over 20 years of experience in this field and our highly skilled and qualified employees take pride in the fact that we are one of the preferred installation and erection contractors in the industry.

We specialize in the installation and erection of Reclaimers, Stackers, Spreaders and Conveyor Systems. We strive to meet each customer's requirements and pride ourselves in the quality of our work.

Our focus remains on quality, efficiency and safety in Maintenance, Refurbishment and Breakdowns on Bulk Materials Handling Equipment

Over the years we've developed extensive and expert know-how in servicing both old and new equipment of Reclaimers, Stackers, Spreaders and Conveyor Systems including Slew Bearing replacements.

PLH Projects Management provide services to maintain, refurbish and repair these machines in a professional and speedy manner ensuring shutdown periods are kept to a minimum.

Mission

Excellence in mechanical construction execution.

SAFETY, HEALTH AND ENVIRONMENT

PLH Projects' safety, health and environment (SHE) policy and practices, centre around a zero-harm philosophy towards people, host communities and the environment.

Our Core Values

PLH Projects strives and operate by these values:

- Performance
- Excellence
- Integrity
- People
- Transformation
- Innovation

Construction Management

Human Recourse Technologies
